Tableau Mapping Projects - RA Spring 2021

RA will support policy-related Tableau mapping work, using publicly-available data to develop interactive Tableau mapping of conditions, services and opportunities for early childhood and other interventions in New Mexico.

RA Expectations:

- Have operating Tableau license on personal computer
- Have at least one semester Tableau experience
  - Can show samples of data visualizations created with Tableau
- At least one semester graduate level statistics
- Be available for working on project deliverables using Tableau and statistical analysis

Spring 2021 semester, 10 hours/week, pay $18/hour, tuition credit hours negotiable
