Research Assistant

The University of New Mexico’s, College of Nursing is looking for an experienced, detail-oriented Research Assistant to work up to 20 hours per week within our new research laboratory. Our laboratory investigates how metal-based environmental and occupational exposures impact health. The selected candidate will perform lab and research duties; Tasks may include data analysis, computational skill in machine learning, research, designing, and other tasks as assigned. This position demands excellent administrative, computer, organizational, and customer service skills as well as attention to detail. It will require working on campus so that data can be collected and accessed.

This position requires attention to detail and ability to develop and follow scientific protocols accurately and reproducibly. The candidate will have the ability in computation, a basic knowledge of biology, chemistry, physiology, immunology, or related scientific disciplines. This position will report to the primary investigator Dr. John Yu.

Campus: Health Sciences Center (HSC) - Albuquerque, NM
Pay: $2083.33 monthly stipend
Preferred: Experience with Computational Skills such as Python
A complete application will include:
1) Cover letter
2) Resume
3) Contact information for three supervisory references with one being your most current employer.

Please submit your complete application via email to MatMontoya@salud.unm.edu. Best consideration date 3/1/2022.

The University of New Mexico is committed to hiring and retaining a diverse workforce. We are an Equal Opportunity Employer, making decisions without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, veteran status, disability, or any other protected class.
