APPLICATION CATEGORY	SPECIFIC INSTRUCTIONS
Educational Background	Unofficial transcripts are required and should be uploaded in this section.
Program of Interest	Select: School of Engineering > Electrical & Computer Engineering > Computer Engineering
Test Scores	GRE scores are required and should be submitted to the University directly by ETS (Institution code: 4845; no department code needed). Scores should also be reported in the online application. English proficiency test results, such as the TOEFL or IELTS, are required by the University for all international applicants. Further details and the minimum score requirements can be found on the UNM Global Education Office website.
Letter of Intent	Please give a brief statement regarding your motivation for acquiring an advanced degree, work or research experience, and if any, interest in or contact with an ECE faculty member.
CV/Resume	No special instructions.
Special Requirements	International published papers in peer-reviewed conference proceedings or journals may be uploaded here (optional).
Assistantships	Assistantships are limited and selection process is very competitive. Please submit a short paragraph stating your ability to be self-supporting or financial need, and if any, experience with teaching undergraduate level courses.
Recommendations	Three (3) letters of recommendation are required from professional references such as instructors and supervisors, not friends or relatives. Applicants are only expected to enter names and email addresses of their providers. The system will automatically send messages to the providers prompting them to submit letters online through the application system.
