**TIMELINE**

The thesis defense is scheduled once a student and the student's major advisor have agreed that the manuscript is in its final form. At least two weeks prior to the defense, the student must submit an Announcement of Examination form to Graduate Studies through gradforms.unm.edu. Master's students must submit their thesis to the UNM Digital Repository within ninety (90) days of passing their final examination defense for the thesis. If a petition has not been approved by the Dean of Graduate Studies for extension to the 90-day policy or the manuscript is not submitted within that time, the student may be required to schedule and complete a second final examination for defense the thesis. In all cases the results of the defense must be submitted to Graduate Studies no later than two weeks after the announced date of the defense.

The student who misses the terms degree requirement graduation deadline (Summer-July 15, Fall-November 15, or Spring-April 15) but completes degree requirements by the last day of that term may choose to follow the Courtesy Policy. University regulations require that Master-PLAN I-Thesis (599) students must be enrolled and complete a minimum of one hour of graduate credit in the term they complete degree requirements. Should students miss the graduation deadline (July 15 for summer graduation, November 15 for fall graduation, April 15 for spring graduation), but complete all degree requirements on or before the last day of that term, they are not required to register for the next (graduation) term except for any obligations to meet full time enrollment. The degree program must submit the student's name on the proposed graduation list for actual term of graduation.

**THESIS SUBMISSIONS & EMBARGOES**

Theses are submitted to Graduate Studies in an electronic PDF format to the UNM Digital Repository. (Please note: thesis are no longer being submitted to LoboVault, UNM's previous repository for theses and dissertations.) The university encourages
open access to all electronic theses and dissertations (ETDs) that are produced in the
course of graduate work at UNM. To facilitate this, ETDs will be made available on a
server housed in the UNM repository, and will be available for search and download
through web search engines such as Google.

When you are ready to submit your thesis manuscript to the UNM Digital Repository,
please submit the final version. No corrections will be allowed after submission
without a petition to the Dean of Graduate Studies.

In some cases, it is not appropriate for a thesis to be immediately available as an
Open Access file at the UNM Digital Repository. Thus, UNM has implemented an
Embargo Restriction (restriction on availability) policy for theses. The embargo will
allow you to restrict public-wide access to the UNM Digital Repository until the
embargo expires which is two years. While embargoed, the manuscript must be
available within the University of New Mexico academic community for satisfying the
program degree requirement. Therefore, if you elect to embargo your work, you
must submit the Request for Embargo Restriction form with signatures and a Memo
of Explanation. There is a $40.00 embargo restriction fee payable to UNM Cashiers
at the UNM Business Center. The new IP-address model only allows persons who use
UNM computers with IP-address designations to view an embargoed thesis.
Otherwise, the public will not be able to view the manuscript. Please discuss this
policy with your committee chair to determine if this procedure is necessary.

MANUSCRIPT FORMATTING TUTORIALS

A series of three digital tutorials, which review the basic steps to format the thesis
manuscript, are available at http://grad.unm.edu/degree-completion/manuscript-
